

The ET Agenda

1.)To give humans Technology and Spiritual knowledge at the appropriate time according to divine law.

This is done so that one day Humans can travel to the stars. An occult understanding of the "cycles" of human history can be found in theosophical and other ancient texts.

a.)Also, advance ET souls "reincarnate as solid physical human beings" for a lifetime. These wise philosophers and scientists aid in the evolution of nations in which they are assigned to.

b.)Other ET races use "telepathy" with their human contactees.

c.)Still others races prefer "trance mediums" to convey to others the needed information.

d.)Sometime, human "**Intuition**" is used by the ETs to pass information.

e.)However there are times when a etheric ET must lower their vibrations and take solid physical human form; for a "certain period of time", so as to accomplish their missions in aiding and instructing humanity. This explains the UFO landing events down through human history.

2.)The ET races advise leaders on international relationships.

a.)They may meet with government officials in solid physical bodies during times of crisis.

b.)Or, they may send their contactees to deliver information in person or by way of the media.

c.)On on rare occasions they will invite government officials aboard their crafts for talks.

d.)They may use written text, dreams or intuition to pass information along to the officials.

3.)ET breeding programs rotate every 2,500 years between ET/Female and ET/Male mating cycles. It

follows the earth's 25,868 (+ or -) year journey around our galaxy. This has been so since the birth of

the Aryan (5th Root) race along the shores of the Ganges river in India 1 Million years ago.

a.)Note: Izzy my ET mate said that the ET races within our solar system do rotate between ET/Females and ET/Males mating cycles, however, other races outside of our timeline and solar system don't. The "Twilight Cycle" overlaps the Pisces Sun Set & the Aquarius Sun Rise transition from one Zodiac house to the next. During twilight cycles both male and females ETs will mate with earth humans (See H.P.B's book The Secret Doctrine" for details about "Twilight Cycle" & Time.

4.)Public education program in every country are on going.

a.)Information on divine laws, galactic history and science are past along to chosen human students capable of

understanding.

b.)Solar system relationships are the current focus at this time.

5.)There is a rich history of ET interventions in human wars. The current propose is to avoid the

total destruction of earth and adjust and bring into compliance human evolution with the divine plan.

6.)To aid humanity in it journey towards the stars the ETs have established many bases of operation

underground and above ground, in space and oceans.

7.)Since the industrial revolution began the ET have maintained a constant "environmental clean up"

program all around the earth.

8.)The ETs have traded technology for treaties with the nations of earth all down through history. There

are many different types of treaties in effect. There are human treaties with both good and evil ETs.

9.)During the war in heaven 1/3 of the galactic races were banished to our solar system and earth.

a.)This was done so as to contain the evil ET races. My best information is that their are treaties in effect between the

good and evil race on earth at this time. Sometimes they work together towards the same goals. Other they are in

conflict with each others efforts.
